CAREER OBJECTIVE

Passionate Python Django Developer with hands-on experience in building scalable web applications, REST APIs, authentication systems, and database-driven functionalities using Django, DRF, FastAPI, SQLite, and MySQL. Strong understanding of MVT architecture, ORM, and clean backend logic. Highly focused on writing efficient, maintainable code and developing real-world Python applications.

PROFESSIONAL SUMMARY

2.3 years of experience in Python Django application development, delivering scalable web applications with clean backend architecture. Skilled in building REST APIs, authentication systems, dashboards, and automated workflows using Django and Django REST Framework. Strong understanding of MVT architecture, database optimization, and modern backend best practices. Consistently delivered projects within deadlines while maintaining performance, security, and code quality.

SKILLS

- | | | |
|-------------------------|----------------|----------------------------|
| • Python | • OOPS | • Api Intergration |
| • Django | • React js | • Scrapping |
| • Django rest framework | • HTML | • Postman |
| • FastAPI | • CSS | • API Development |
| • Postgresql | • Javascript | • Debug |
| • Sqlite | • Tailwind css | • User Authentication(JWT) |
| • Automation | • Mysql | • GitHub |

EXPERIENCE

Proactii Media LLP – (Sep 2024 – Present)

- Developed robust, scalable, and secure web applications using Python, Django, FastAPI, MVT architecture. Built REST APIs, authentication systems, dashboards, and automated workflows using Django & Django REST Framework.
- Designed optimized SQLite/MySQL database schemas, wrote complex queries, and improved performance for large datasets.
- Delivered 4+ major projects on time, exceeding client expectations and receiving positive feedback.
- Communication directly with clients, understanding requirements quickly, and delivered solutions without delay.

Cloud9 Softech – (Aug 2023 – Aug 2024)

- Built, designed, and optimized websites tailored to diverse client needs.
- Collaborated with cross-functional teams to deliver high-quality, user-friendly projects.
- Implemented industry best practices for performance, security, and UX.

EDUCATION

BCA – Bachelor of Computer Applications Pune University, SSR
College, Silvassa | SGPA: 7.38 | 2021–2023

PROJECT DETAILS

Phoenix E-Commerce Platform – <https://phoenixdigitals.in/>

- Developed a scalable and secure e-commerce platform with a strong backend architecture.
- Integrated secure user authentication, product management, and inventory tracking features.
- Built CRM functionalities for customer management, order history, and analytics.
- Implemented a seamless payment workflow with Razorpay integration.
- Added full order lifecycle management with status tracking, SEO-optimized structure, and mobile-responsive UI.

GCMSConsultant – <https://gcmsconsultants.com>

- Developed and deployed a fully functional, dynamic website for a service-based company specializing in offshore business solutions and wealth management.
- Designed a secure, user-friendly admin panel for content management, allowing non-technical users to update services, manage client data, and monitor inquiries.
- Integrated features like user authentication, role-based access control, and activity logging.
- Ensured responsiveness across all devices and improved mobile/desktop experience.

Proactii Accounting Management System – <https://myonlinedemo.in/Proactii/login>

- Designed an accounting management platform for expense tracking, income records, and account-wise transaction logs.
- Features include secure login, data validation, and user-friendly dashboards.
- Developed an intuitive and secure admin dashboard for managing platform data efficiently.

Vapi Plastics – <https://vapiplastics.com/>

- Developed a complete product management platform for Vapi Plastics, including product listing, category management, and detailed product pages for plastic tapes and related items.
- Implemented a secure admin panel allowing the team to add, update, delete, and categorize products effortlessly.
- Designed category-wise product structure, enabling users to explore products based on type, application, and specifications.
- Created a clean and responsive front-end UI to display product details, features, and usage applications clearly.
- Ensured smooth backend functionality with proper form validation, data handling, and optimized database queries.

Library Management System – <https://library-management-v8pt.onrender.com/>

- Implemented automated 15-day due date system and overdue tracking with red alert notifications.
- Integrated fine calculation at ₹5/day for overdue books.
- Built a smart book search feature for easy catalog lookup by title, author, or category.
- Created user dashboards to view borrowing history and track book status.
- Designed librarian and admin panels for monitoring library operations, managing books, and generating insights.
- Implemented a borrow & return workflow ensuring smooth and accurate book management.
- Focused on responsive and user-friendly UI, enabling easy navigation across devices.

Other Notable Projects

- hrpadaav.com (<https://hrpadaav.com>) – HR services website.
- yesbinfratech.com (<https://yesbinfratech.com>) – SEO-friendly corporate site.
- earthweld.co (<https://earthweld.co>) – Industrial solutions website.
- anupamapackaging.com (<https://www.anupamapackaging.com>) – Packaging company site.
- ananddevelopers.in (<https://ananddevelopers.in>) – Real estate website.
- serviqbiz.in (<https://serviqbiz.in>) – Business services site.
- siddharthenterprise.co.in/weprotect (<https://siddharthenterprise.co.in/weprotect>) – Wooden Door services site.
- Many more industry-specific responsive and SEO-friendly websites.
